

MY JOURNEY TO THE VILLAGE

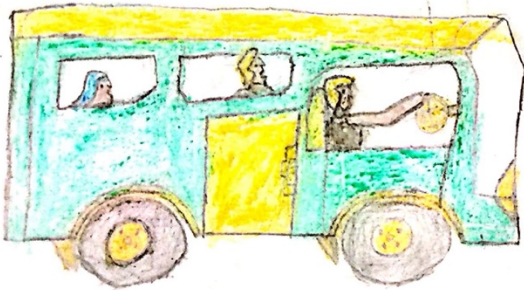

ALIBOR MIRACLE

I was going to visit my grandmother in her village during my school holiday.

1

While in the bus, I saw a very big airplane.

2

When we got close to the village, we saw a man selling water, biscuit and minerals. We bought some of them. After that, the driver said we would arrive the village soon.

3

When we arrived the village, my grandmother ran to hug us while other children ran to carry our loads from the cars.

4

In excitement, grandmother told us that she had prepared a delicious meal for us.
