In every unfulfilled and feign promises of our leaders.
Just by our own state of ignorance and unawareness.
Nevertheless, not give in all.
But go after things that suit our inclination to meet our meet our ends.
Also, to bring about dignities and civilities to our life.
We acclaimed this very day
Because it is what our heroes past had won before our conception.

Arise oh compatriots.
Let collectively create the changes.
For making this our mother's land name.
To resonate and be in consonance.

Be hopeful in every despair
Build your morale in every challenges.
Do not be bamboozled and mesmerized by a gift just to gratify your ego for a moment.
Restrategize your modes and methods.
You deploy in achieving your goals.

Pursue the things that suit your inclination not by somebody's else dictations.
Be happy in every circumstance, though tedious.
See every sabotage as a devise
